NEEDS VS WANTS:

- | | |
|--|---|
| • app that'll report available parking | • reports what's nearby or near me |
| • user-friendly at all levels | • organized app |
| • instant parking information | • friendly and readily available customer support |

Amy is a freshman UofSC commuting student, majoring in accounting and minoring in finance.

One day, she sleeps through her alarm clock for her first period and realizes she's about to be late for school.

Amy rushes to get ready and out the house. On the drive to campus, she checks her phone to find any available spots quickly.

Because of the app, she is able to find parking quickly and successfully. Thus, she is able to get to class on time.
